Did you enjoy fucking to the glammy, glossy sleaze of Goldfrapp's *Supernature*? Well, *Seventh Tree* takes the relationship to the next level, providing a chilled out, sensual soundtrack for lovemaking and post-coital snuggling. Gone are the hip-thrusting rhythms and sexy come-ons; these gentle tunes rely on acoustic guitars, mellow beats and breathy vocals to seduce the listener. Sure, it's more mature and grown-up sounding (think *Everything But the Girl* meets *Zero 7*), but Goldfrapp helps give MILF's a good name. NEVIN MARTELL
