**RINSE/DGC**

Borrowing a title from sci-fi scribe J. G. Ballard, Klaxons have crafted one of the catchiest debuts of the new millennium. With a single-minded desire to bring glow sticks, MDMA and Technicolor clothing back into fashion, this U.K. three-piece is all about zooted-up pop tunes perfect for a drug-fueled all-nighter. "Atlantis to Interzone" is KLF smashed into the Happy Mondays, while "Golden Skans" is a mini-trip along the light fantastic. Let the party begin. **NEVIN MARTELL**
